And students are gradually responding to this system. We have succeeded a lot in doing so.

Chapter- 6 Concluding Remarks

Overall Assessment of Performance of the Last year and Key Target for the Next Year

The teachers and the employees showed creativity and innovative skills in continuing academic and official activities. They showed quick adaptability and communicative skills too. The all these are the part of their accountability with the profession. They also developed problem solving and inter personal skills.

We must carry on the technology-assisted programs to ensure the virtual attendance, punctuality, productivity of quality work, mutual cooperation, coaching and training skills and so on.

We will arrange more in-house training programs, national and international webinars, cultural competition on virtual platforms, awareness programs and so on.

Key Challenges and Risks for the College

Risk Factors:

- Lack of motivation for academic performance
 - Changing negative attitude to positive
 - Help to boast up self-respect and level of confidence
 - Reducing under preparation for academic feedback
- Key Challenges:
- Enhancing class room performance
 - Setting up technology-based classrooms
 - Developing behavioral pattern and cultural attitude
 - Increasing guardian's involvement

Recommendations

If we find any change in ongoing pandemic situation, we should increase technological facilities, such as Wi-Fi access for both of the teachers and students. In the periphery where Wi-Fi access is not easy students should be provided with mobile data facilities almost free of cost. Effective online examination system should be innovated. Teachers and officials' efficiency should be increased in technological fields by imparting training programs. They should be encouraged to be technology savvy.
